    f. Cole
4. BetWise
5. Our application is a modern, web-based casino featuring three fast, polished games-blackjack, mines, and slots-built for quick sessions and clear, engaging gameplay. Players create an account and are issued a credits wallet to play immediately, with optional "practice mode" to learn rules and test strategies without affecting their balance. Each game delivers responsive UI, instant feedback, and smooth animations across mobile and desktop.

    Our application is a credit based platform, with no real money. This will offer engaging gambling to entertain users but protect their wallets and wellbeings. Our website will be simple, but easy to use and a great way for new gamblers to find success before taking their hard earned money to the casino.
6. Our audience is very broad, mainly targeting beginner gamblers who want to enjoy the thrill of gambling without the disappointment of debt
7. For beginner gamblers, who don't want to lose money while learning. The BetWise application is a gambling website that teaches new gamblers how to play with no financial risk. Unlike other gambling or betting sites, our product is genuine and we care about the user more than the money.

9. We will use a Kanban board
10. We are going to communicate on discord. This is good for us because some of us are experienced and others are open to trying it.
11.
    a. We will meet on Tuesdays at 12:25 in person if we all are available, zoom if not
    b. We will meet with our TA on Tuesday at 12:30 on zoom, this way we can all be together for this meeting and then continue our independent work together afterwards.

Welcome to Betwise - Your Beginner-Friendly Gambling Hub!

Explore exciting games and learn the ropes of online gambling in a safe and fun environment.

Slots

Spin the reels and try your luck! Simple and fun, perfect for beginners.

Blackjack

Beat the dealer to 21 without going over. A classic card game with easy-to-learn rules.

Mines

Uncover prizes and avoid the mines in this thrilling game of chance and strategy.

Extra Credit:

1. Legal issues because underage gambling is illegal (Super Very Severe)
   a. Mitigation- we don't use money and will not charge our users for anything
2. Algorithm trouble (Very Severe)
   a. Mitigation - we will use true randoms for the random games like slots or mines, and we will use a sound blackjack algorithm
3. Infinite Credits (Very Severe)
   a. Mitigation - We will have a maximum number of credits one can get and make a minimum negative balance that cannot be passed
4. Bad Communication (Very Severe)
   a. Mitigation - we will make sure to have weekly plans and communicate often on our channel
5. Animation difficulty (Very Severe)
   a. Mitigation - we will research and learn how to best animate our games, but default to a simpler animation instead of making it our main focus.
